Wild Pigeons Very Plentiful On Coast

Several good-sized bands of wild pigeons seem to have a haunt around Little River. In fact for several years past it has been a favorite resort for these wary birds, who paid particular attention to the Kent pea patch. This season, however, a number of the ranchers have considerable acreage of green peas and the birds feed in widely separated fields. At night they all use the same roosting grounds, back of the Pullen ranch, in a heavy growth of firs and pines. Some of the bands fly on up the river where the country is quieter and wider.

John Schrieber, of Redwood Valley, was attending to business matters in town Monday.

Executive May Attend Sessions Of Hospital Managers

The bi-monthly conference of state hospital superintendents and business managers under the Department of Institutions will be held at the Mendocino state hospital at Talmage Friday and Saturday, June 27 and 28.

What Idea Is.

This conference is a regular feature inaugurated by the Department of Institutions for the purpose of standardizing the work of the various institutions. Many scientific papers are presented but the largest benefit derived from the conference comes from the opportunity thus afforded for free and open discussion of problems of management and treatment common to all institutions. The conference will also be attended by representatives of the social service department of each institution, who will have their separate program of papers and discussions.

Governor May Attend.

It is hoped Governor C. C. Young may be able to be present on one of these days to address the conference.

TO THE VOTERS

To the Voters of Mendocino County,
Dear Friends:

Once again the time has arrived when the candidates for the various county offices are asking the voters for support.

As candidate for reelection to the office of county recorder of Mendocino county, I am coming before you to solicit your support of my candidacy.

I base my request for your favorable consideration on the efficient manner in which the affairs of the recorder's office have been conducted during my tenure of office.

As county recorder I have endeavored at all times to give the taxpayers a just, efficient and up-to-date administration of the matters entrusted to me, and basing my contention on the reports made by the investigating committees of the various grand juries, I believe that I have succeeded in giving not only an efficient, fair and just administration, but an economical one as well.

I am not entering this campaign with the intention or desire of injuring any person whatever, but solely for the purpose of soliciting my election as county recorder, that I may continue to give to you all the prompt service and up-to-the-minute management of the affairs of the office to which you, the voters of this county, are entitled.

I will endeavor to see each and every one of you during the campaign and I want you to know that I appreciate the honor you have conferred on me in the past, and if elected will endeavor to show you by my performance in the future that you have made no mistake in electing me county recorder for the ensuing term.

Thanking you for your courteous treatment of me during the past campaign, and assuring you that I will appreciate your support at the primaries on August 26, 1930, I am,

Yours to command,
JAMES R. ELDER,
County Recorder.

After the First Twenty-five Thousand Miles

THE VALUE of sound design, good materials and careful craftsmanship is especially apparent in the new Ford after the first twenty-five thousand miles. Long, continuous service emphasizes its mechanical reliability and economy of operation and up-keep.

As you drive the Ford through many months and years you will develop an increasing pride in its appearance and a growing respect for the substantial worth that has been built into it. From every standpoint—in everything that goes to make a good automobile—you will know that you have made a far-seeing, satisfactory purchase.

Wherever you go, you hear enthusiastic praise of the car and this significant, oft-repeated phrase—"I'm glad I bought a Ford."

A FORD owner in New York tells of a 13,000-mile trip across the United States and back in sixty days and says "the car was extremely economical to operate, comfortable and speedy." A grateful father tells how the Triplex shatter-proof glass windshield saved his wife and children from serious injury.

To test tires, a large company drove a new Ford day and night, for an average of 500 miles every twenty-four hours. It was still giving satisfactory service after 105,000 miles.

A Ford car that had fallen into Fernan Lake was submerged for twelve days before being raised. After a new battery and carburetor bowl were installed, it was driven back to Spokane under its own power.

Many police departments have written of the special advantages of the Ford in crowded traffic because of its alert speed, acceleration, and ease of control. An increasing number of fleet owners are also purchasing the Ford because their cost figures have given conclusive proof of its economy of operation and up-keep.

In addition to important triumphs in Germany, France and Italy, the Ford won six out of seven leading places in a contest in Finland, first and second in the Rafaela races in Argentina, first and second in the run from Copenhagen-to-Paris-to-Copenhagen, three gold medals in England, first ranking in the durability test over the tortuous Amancaes road in Peru, and first place in the 1930 reliability run conducted by the Royal Automobile Club of Sweden.

This contest was an exceptionally severe test of endurance and sturdy construction because it was held in the dead of winter and covered 600 miles of steady running over snow-covered country roads and mountainous hills.

Senator F. C. Handy Will Win Election

L. J. Scooffy was here Friday a short time enroute to his lodge on Noyo river. Mr. Scooffy, ever interested in politics, stated he had no apprehension regarding the candidacy of Senator Fred C. Handy, as the people appreciated he was an outstanding figure in the state senate and the taxpayers could not possibly get a better man for the place. "People know where their best interests lie and it is human nature for one to look after their own affairs as well as possible and, accordingly, the taxpayers will roll up a big vote for Senator Handy," said Mr. Scooffy.

Warren A. Bonner officiating. The ceremony was witnessed by a large company of relatives, many of whom motored here from Healdsburg for the event. Among them was Mrs. Otto thom Wohrden, mother of the bridegroom. The bride has been very popular in social circles of Healdsburg and Geyserville. Last week she and her sister entertained at bridge complimentary to Miss Helen Peterson, of Geyserville, who was wedded a day later than Miss Rose to Albert Glaser, Jr. Mr. and Mrs. Stine have taken an apartment in this city.

When they reach Seattle they will embark for a steamer trip down the Pacific coast to San Francisco. Following their arrival here Mr. Mannon will prepare to take the state bar examinations in August. Mrs. Mannon, who was Miss Hilda Benker before her marriage during the holidays, has many relatives here and both she and Mr. Mannon will be cordially greeted.

MEMBERSHIP IS NEEDED FOR FATHERS

(By MARIE HINTON REA)

A nation-wide appeal has gone forth for the enlistment of fathers in the work of the Parent-Teachers Association. It is asserted, without the concern and sympathy and co-operation of fathers, the work will never reach the high plane intended in interest and the general welfare of children—not until a men's membership is built up. Too often the fathers, who are thoroughly competent to criticize acutely and intelligently the workings of such an organization, are afraid to do so lest they be considered as literary or civic poseurs. They will talk like news agents where they consider no vague danger lurks in conversing, but where the need for their superior judgment is most desired they are mute. Membership and active participation in the Parent-Teachers organization would lead to unconscious imbibing of the traditions and ideals on which the association is founded. Any organization devoted to the welfare of children and the public schools has missed a golden opportunity for advancement by the lack of the co-operation of fathers. It has been said: "In civilization no man can live wholly to himself." This applies to women also but somehow they have discovered the fact long ago whoever would achieve power, influence or success in the things that count most in life—namely the proper background for the interest of the home and the school—must cater to a high standard of morals, manners and culture. Men and women need to be united in gathering into their hands the reins of influence that guide the character, and the education and provide the cultural background for the business man of the future and the mothers of tomorrow. It is a distinct loss to civilization when a man covers up his intellectual abilities — his power to deliberate where children are concerned—under a mask of indifference or "outside" business interests.

OAKLAND STUDENTS HERE

Miss Ruth Thomson, student nurse at the Merritt hospital in Oakland, accompanied by her roommate and fellow student, Miss Isabel Myhre, of Oakland, is passing a fortnight as guests in the home of Mr. and Mrs. J. Thornton, nee Bonnie Crawford, son and daughter; Mr. and Mrs. J. C. Crawford and children, Mr. and Mrs. Ivan Crawford and two children, Mr. and Mrs. W. L. Crawford and son; Mr. and Mrs. P. C. Crawford and daughter, Margaret; Mr. and Mrs. Robert O'Day, nee Ruby Crawford. The gathering took the form of a no-host dinner party, the table appointments being supplemented by bouquets of mixed summer flowers.

LEFT FOR EAST

Mr. and Mrs. A. R. Thomas left Oakland last week on one of the two special trains that carried about 300 Rotarians to Chicago where an international meeting of the order is being held this week from Monday to Friday, inclusive. GRADUATES PICNIC

About 100 members of the Ukiah Grange were present at the meeting Friday evening. Owing to the fact the meeting date conflicted with the high school commencement program the conferring of the first and second degrees, slated for the meeting, was postponed. The program included a dramatic reading by Mrs. C. A. Bernhard and a pantomime in which several members participated. Fruit punch, ice cream and small cakes were served by the committee which included Miss Dorothy Larsen, Mrs. J. Newell Rea, Miss Maxine Adams, Miss Lillian Hengeveld and G. Romer.

ENJOYABLE TRIP

Mr. and Mrs. Robert Powell, of San Francisco, and Mrs. William Briggs and Mrs. S. A. Souder, of this city, returned early last week from a motor trip to Crater Lake. The party had a very delightful outing but found much snow on the crest above the lake and in higher parts of Oregon. The local ladies are mother and aunt of Mrs. Powell, who, with her husband, returned to their San Francisco home after an over-night stay here.

HERE FOR GRADUATION

Relatives and close friends of Miss Felice Hofman who were guests in the L. Hofman home while here to witness the graduation of Miss Hofman from high school Friday evening included Mrs. Celia Lobree, aunt of the young woman, Mrs. Ben Rosenberg, former local resident, and Miss Aline Goldstein, daughter of the former Camille Rosenberg of this city, all of San Francisco. P.; Harold Zimmerman, P.; Albert Bechtol, 1st V.P.; Wilburn Brown, 2nd V. P.; Henry Bucknell, 3rd V. P.; Joseph Figone, marshal; Ben Hofman, secretary; A. D. Scott, treasurer; A. L. Tracy, Z. HEARING WILL

(Continued From Page One)

be permanently lowered within reasonable limits of cost to permit passing the bridge with the clearances proposed? If so, what would be the probable cost? If not, what reasons prevent?

"4. If permanent alteration of these vessels is not desirable, is it feasible to alter the masts to permit lowering them temporarily for passing the bridge and what would be the probable cost, per vessel, of such changes?

"5. If masts should be arranged for temporary lowering, could this be done while vessels are moving at their normal speed for the channel, or would it be necessary to slow down or stop; if so, what would be the average length of delay to the vessels?

"6. At what minimum height above stacks and superstructure should antennae be placed to provide adequate radio communication on intermediate wave length?

"7. If masts should be permanently shortened as suggested above, what would be the decrease in radio range when operating on intermediate wave length, and what would be the cost per vessel to provied sufficient additional power to provide the original radio range?

"8. If a rearrangement of mast heights is considered feasible but not to an extent sufficient to permit the passage of vessels affected under the vertical clearance proposed, what vertical clearance would then be necessary?"

An Explanation Made.

In his report dated February 19, 1930, Chief Engineer Joseph B. Strauss, of the Golden Gate Bridge and Highway District, made the following statement relative to vertical clearances, with which, apparently, the army engineers are chiefly concerned: "The clearances will be unchanged, namely 200 feet at the piers and 225 feet at the center. The height of the towers is approximately 760 feet above water.

Few Ships Affected.

It is stated there are approximately three existing vessels that would be unable to pass under the Golden Gate bridge without lowering their radio masts. It is further stated none of these vessels are able to enter San Francisco bay, either through the north, south or main ship channel because of its depth.

To Fight Attack.

Determined nothing shall interfere with construction of the Golden Gate bridge Marvelous Marin, Inc., county-wide chamber of commerce, will be represented by a strong delegation at the bridge hearing to be held by the United States army engineers at the city hall in San Francisco Monday, June 30. This was the announcement of Harry G. Ridgway, president of Marvelous Marin, Inc., who has issued a call to the vice-presidents at large of the organization urging them to obtain assurances from the leading citizens of their communities they will be present to aid in the protection of Marin county's interests.

For The Bridge.

Supervisor C. R. Perkins has been requested by the Golden Gate bridge board of directors to appear as a witness before the Army Board Monday in San Francisco and testify in favor of the bridge project and has sent word to the directors he would do so.

A Wonder Bridge.

Nation's Business has the following: "Not later than 1932 New York City will be linked to the New Jersey shore by means of the new Hudson River bridge. The bridge will cost $60,000,000, and its erection is one of the world's most remarkable engineering projects. Work was commenced in 1927. The new bridge will cross the river from Fort Washington, in upper New York City, to Fort Lee, in New Jersey. When completed, it will be a double-deck highway and railroad structure, and will have 14 traffic lanes capable of carrying the entire population of a city as large as Baltimore, Md., in one day. Its main span—3500 feet long—will be twice as long as that of the Philadelphia-Camden bridge, known since 1926 as the world's longest suspension span."

An Argument Fails.

If the Hudson River bridge cost only $60,000,000 the argument the Golden Gate bridge would cost more than $30,000,000 falls, as in New York great sky-scrapers had to be purchased and razed to get right-of-way and the eastern bridge has a double deck railway and 14 lanes for traffic.

HERE FROM COAST

Mendocino coast residents who were registered at The Palace Hotel from June 16 to June 22 included C. W. Marshall and wife, J. Olinsky, Mrs. Janet Gleeson, L. E. Grimes and Roscoe Lawson, of Fort Bragg, and N. P. Howe, of Point Arena.

Mrs. R. L. Cleveland, after visiting in the southern portion of the state some months, is now at Middletown, where she will pass the summer with relatives.

DAUGHTER IS BORN

Mr. and Mrs. J. V. Thomson received word last week of the birth of their first grandchild, which was a daughter, born to Mr. and Mrs. Harold Thomson, of Berkeley, Friday, June 27. The litle girl has been christened Suzanne, which is the combined given names of her maternal and paternal grandmothers. Mrs. Thomson is planning an early trip to the bay district to greet the newcomer.

HURT IN CAMP

Frank Haun, son of Mrs. Mary Haun of Willits, was badly injured Wednesday at a bark camp near Cummings. The young man was working for Pat McPhillips, who has a contract to get out bark for H. B. Muir, and was felling a tree. A large snag on the tree struck him as it fell and crushed his chest and broke his leg. He was taken to the Howard hospital in Willits.

LADIES THANKED

The Dominican Sisters desire to convey their sincere acknowledgement and thanks to Miss H. Wurtenberg for her noble, beneficent sentiments in presenting The Albertinum boys with her well-preserved "Waters" piano. This gift, no doubt, is an heirloom of the family and consequently, the transfer of ownership entailed no small sacrifice.

The sisters have placed this instrument in the school auditorium where it graces the center in front of the stage. Here the boys may enjoy its musical charms under the direction of their Prefect, P. Derrick, who is an accomplished musician.

Mrs. E. A. Dunsing, another friend of the institution, is deserving of the highest encomium. This kindly lady spent several weeks in painting sidewings for the stage, embellishing it with attractive, artistic scenes in oil colors.

Late Cases Filed In Superior Court

The Dispatch last week in reporting the outcome of the case of Curry vs. Curry erred in stating that most blame attached to the husband and that the wife was awarded the decree. The opposite was true. The judge held that the most blame attached to the wife and the decree was therefore granted the husband.

H. B. Muir has applied for probate of will of the late A. B. McCabe, who died at Willits on May 11, leaving real estate and personal property valued at "less than $10,000."

Lena Tracey has applied for letters on the estate of Mervyn Tracey, who died at Willits June 8. The value of the estate, which consists of personal property, was not approximated in the petition. The petitioner is the widow of the deceased.

Through W. D. L. Held, E. F. DeMotte has filed a petition for probate of the will of the late Clara E. Kaster, his sister. The estate consists of real estate and personal property valued at $5000.

Through M. H. Iversen, the Bank of Italy has applied for letters of administration with the will annexed on the estate of John Peter Mathison. The estate is real and personal property valued at "less than $10,000."

Through Louis D. Mooney, Pearl Thompson has filed a petition for letters of guardianship over George H. Ramsdell, aged 85 years. The petitioner is a daughter of the alleged incompetent. The latter has a monthly pension of $75 as a Civil war veteran.

Through Frank Taft, A. B. Guslander, of Willits, has filed a petition for letters on the estate of his deceased mother, Annie Guslander. The estate consists of real estate and personal property valued at $2500.

Through Frank Taft, Harry Pullen has filed a petition for letters on the estate of Joseph Gruben, who died at Willits June 12. The estate consists of real and personal property valued at $1650.

George Tourny, trustee, has filed a petition asking the superior court to take charge of and direct the sale under trust deed of certain real estate near Ukiah, determine the interests of the various creditors and claimants and, if necessary, appoint a commissioner to handle the sale. The property involved is the former Standard Stock Farm near Ukiah. The original deed of trust was given for $25,000 by the L'Hommedieu company in favor of the San Francisco Bank, and it is alleged that there is a balance due of $22,500, besides certain interest. E. W. Dillingham and wife and two sons are the present tenants of the property, which they took over from L'Hommedieu & De Laveaga. The bank is joining with the trustee in the petition to have the court take charge of the sale.

ASK HIGHWAY TO FOOTHILLS

Effort Is Being Made For Scenic Road In The Suburbs

Efforts are being made to create interest in a foothill boulevard for the western section of the city limits. The road would connect with Park boulevard near the Gem Ranch and run northerly around the foothills and connect with the Low Gap road near the old tannery site.

Ready To Assist.

Provision for a substantial bridge across Orr Creek would be made by the city and county, which bridge would also be used to reach the new site of the garbage dump. It was also learned the county road district would place at the disposal of the city all its road equipment and right-of-way has already been offered in several instances. There is nothing to lose and much to gain in such an enterprise which would create a scenic drive sure to be popular with motorists.

Fishing Is Reported Poor At Little River

The opening of the trout fishing season didn't make much excitement on the coast. Only small catches of very small fish were reported. Little River seemed to be pretty well fished out.
